Testo Ecosystem: Empower your world  
testo 860i mini thermal imager  
for smartphones

### SPOTLIGHT ON: Testo Ecosystem: Empower your world

## Smart Networking with Testo Ecosystem

## Empower your world.

Faster, Simpler and more sustainable.

The Testo Ecosystem empowers HVACR technicians with future-ready, user friendly and precise technology.

All applications are integrated into one manifold, thanks to wireless connectivity with the Testo Smart Probes, vacuum pump, clamp meter, and refrigerant scale. The equipment is A2L and A3 compatible, ensuring maximum safety—even when working with flammable refrigerants.

# testo 860i

**testo 860i – a mini wireless thermal imager for smartphones with easy operation and display via the testo Smart App, is the perfect choice for quick spot checks in the HVAC trade, maintenance, buildings and many other applications.**

## Features

- Simple and fast determination of Delta T in the thermal image using application-specific DeltaHeat and DeltaCool measurement functions
- Razor-sharp thermal images thanks to high infrared resolution (256 x 192 pixels)
- Everything is simple with the testo Smart App: easy operation and effortless documentation with on-site emailing
- Flexible handling through wireless use or one-handed operation directly attached to a smartphone
- High suitability for everyday use and robustness with IP54 and fall protection up to 1.5 m

**testo Smart App**
