Launching Milieu Climate
Limited Stock offer on Testo 550i
Smart Manifolds

SPOTLIGHT ON: Launching Milieu Climate

The Milieu Climate is more than just a smart thermostat. Not only does it make your home or office environment healthy but it also makes it safe by monitoring the vital environmental conditions.

Wireless Portable Hub

Have your ideal environment follow you around with a portable Hub that senses your room temperature from where you are. You can control your environment by using a voice command with Alexa or Google, through Milieu Climate app.

It has a sleek, rounded interface and stylish display. Its vertical and horizontal mounts allow the device to fit seamlessly with any décor or positioning. Place it anywhere in your home to monitor that room or simply add another hub.

Stay Safer

A high concentration of Volatile Organic Compounds (VOCs) in your home can have an impact on your health. The Milieu Climate Smart Thermostat is one of the first of its kind to feature an innovative VOC sensor to monitor your home's air quality to help keep you and your family safe.

Milieu Climate Zoning System

Air conditioning system becomes more efficient with Milieu's temperature control, humidity monitoring and zoning capabilities. Its zoning solution is integrated without the need for an additional wall switch.

For more information on our Milieu Climate, contact your local Eurotec HVAC Sales Engineer or give us a call on 09 579 1990.

Features

- 7 built-in sensors, including Humidity, Air
- Quality and Motion Portable Hub
- Controls up to 9 zones, with Individual Climate Control
- Schedule your week, from anywhere
- Automatically adjusts temperature
- Utilises humidity and temperature sensors to save energy
- Activates the fan when air quality drops below a healthy level
- Allows for future integrations with IoT devices
- Home automation with Amazon Alexa and Google Home
- Auto updates to the latest software
- Remotely control up to 8 properties and up to 64 air conditioners

Smart diagnostics for best support

With the Milieu Dashboard, you can easily monitor and diagnose any issues with the Milieu Climate remotely.

You can provide your customer with a prompt solution to any problems without the need for yourself or another technician to attend the premises. It is simple to use and easy to install into your customer's home or office.

Contact your local Eurotec HVAC Sales Engineer for further information on the products mentioned in this newsletter or to discuss your project requirements.
