Custom-built Refrigeration Control Panels
Blog: Efficiency and precision for an
artisan product of excellence

SPOTLIGHT ON: Custom-built large commercial/industrial panels

Custom-Built Refrigeration Control Panels

Control Panel Solutions (CPS), a division of Eurotec Ltd, specialises in the design and manufacture of custom-built control panels for large commercial and industrial refrigeration applications. Since 2008, CPS has been delivering robust and reliable solutions for cold storage facilities, food processing plants, supermarkets, and distribution centres across New Zealand.

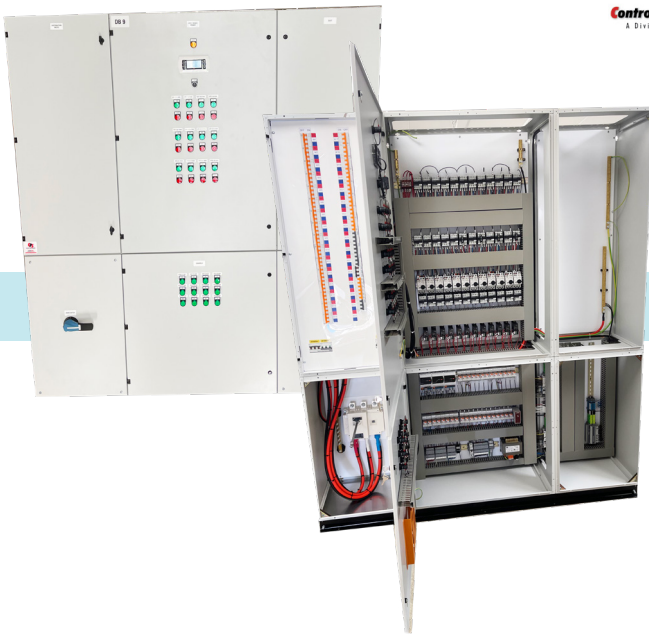

From multi-system HVAC&R plants to integrated industrial processes, CPS provides fully customised panels designed for efficiency and long-term performance. Every panel is engineered to client specifications, incorporating advanced control and monitoring technologies to ensure seamless integration with existing systems.

Backed by Eurotec's technical knowledge and nationwide support, our custom-built panels are manufactured, pre-tested, and programmed in-house before delivery, minimizing installation time and enabling faster commissioning on-site.

With a focus on quality, innovation, and reliability, CPS is trusted to deliver control panel solutions that power some of New Zealand's largest and most demanding projects. Below are some examples of our custom-built large commercial and industrial panels.

For more info, contact your local Eurotec Refrigeration Sales Engineer or give us a call on 09 579 1990 or email sales@eurotec.co.nz

Efficiency and precision for an artisan product of excellence

What do you know about cheese aging and ripening? How many factors help cheese have a delicious taste and nuances in flavour? Should the climate be warm or cold, ventilated or not? All these questions arise when dealing with cheesemaking. Now, cheesemaking has become significantly easier, as cheese can be aged in optimum conditions. Read our [blog](#) to learn how Carel supervisory system can help perfect the art of cheese making.
