## testo 558s

The new  
 digital manifold

### Inside this issue:

testo 558s--the new digital manifold  
 testo 565i --Smart Vacuum Pump;  
 Event: BuildNZ

### SPOTLIGHT ON: testo 558s --The new digital manifold

## testo 558s

### testo 558s the digital manifold with 4-way valve block and intuitive touchscreen

The new Testo 558s digital manifold empowers HVACR technicians with future-ready technology, precision, and an unprecedented user-friendly design.

All applications are integrated into one manifold, thanks to wireless connectivity with the Testo Smart Probes, vacuum pump, clamp meter, and refrigerant scale. The valve is A2L and A3 compatible, ensuring maximum safety—even when working with flammable refrigerants.

For more info, contact your local Eurotec Refrigeration Sales Engineer or give us a call on 09 579 1990 or email [sales@eurotec.co.nz](mailto:sales@eurotec.co.nz)

## testo 565i

The testo 565i, a smart vacuum pump which comes in two versions -- 7 CFM and 10 CFM, makes evacuations incredibly easy. Thanks to smart technology and the connection to the testo 552i vacuum probe, the 565i automatically stops evacuation once the desired target value is reached and initiates a vacuum hold test automatically. This means that the entire process takes place all by itself.

Be sure. 

### Features

- Fully automated evacuation process with integrated holding test
- Safe use even with flammable class A3 and A2L refrigerants
- One app for everything: Configure measurements, monitor and manage data with the testo Smart App
- Easy oil change and inspection glass for quick assessment of the oil level
- Non-return valve to prevent vacuum loss in the event of a power interruption
- Automatic Bluetooth connection with the testo 565i, the manifolds and Smart Probes
- The testo Smart App guides you quickly and easily through measurement on refrigeration, air conditioning and heating systems
- Easy to create and dispatch the measurement report
