Upcoming Events  
Field Days Re-cap

We measure it. **testo**

### Product Showcase

#### Testo 552 digital vacuum gauge now with Bluetooth!

The Testo 552 measures even the smallest absolute pressures, and delivers highly accurate information about a system's status of dehumidification (removal of foreign matter, incl. oils, foreign gases, etc.).

Via a Bluetooth interface, the testo 552 connects with the testo Smart Probes App on your smartphone or tablet. This allows you to monitor the absolute pressure reached during the evacuation conveniently and wirelessly.

In addition to this, the measurement results can be quickly documented in the App and sent by e-mail.

Its robust construction makes it ideal for everyday use, protected against dirt and water.

**\$342.00<sup>+gst</sup>**

### Smart Probe Refrigeration Set

Only **\$452.00<sup>+gst</sup>**

The Testo Smart Probe Refrigeration set is a combination of four instruments to measure high-side and low-side pressures and temperatures of A/C and refrigeration systems.

**Smart phone.  
Smart probes.  
Smart work.**

#### Features:

- Highly accurate and reliable measurement results
- Measurement data monitoring via testo Smart Probes App
- Measurement data dispatch via testo Smart Probes App
- Measurement of the evaporation temperature of H<sub>2</sub>O
- Optical alarm when a limit value is exceeded
- Extremely robust and water/dirt resistant (IP42)

**Bluetooth  
+ App**

for free download

The new and improved Testo 552 vacuum gauge will be available from Eurotec in mid April 2016.

For more information contact your local Eurotec Refrigeration sales representative or give us a call on 09 579 1990.

**Upcoming Events:**

**ARBS 2016 Air Conditioning, Refrigeration & Building Services Exhibition.**

ARBS 2016 is Australasia's only international HVAC & R and Building Services exhibition. Come along and see hundreds of exhibitors showcasing their new products, technologies and services.

Some of the Eurotec team will be attending in support of our supplier partners Carel, Belimo and Innotech.

Entry to ARBS is FREE to the HVAC & R & building services & related industry trade visitors.

**17th - 19th May, Melbourne Convention and Exhibition Centre.**

**Field Days Re-cap**

The Dairy Cooling Solutions team now have three field days under their belt having been to the Southern, Northern and Central Districts Field days over the last few weeks.

The Packo Ice Bank attracted a lot of attention from visitors as it bubbled away on the stand. A tilted mirror was placed above the PIB so passers by could see into the ice bank while it was running and step up onto a surround platform for closer inspection.

Click on the image below to watch the PIB in action.

We were lucky enough to have fantastic weather for the Southern Field days in Gore and at the Northern Field days in Dargaville

**Dairy Cooling Solutions**  
A Division of Eurotec Limited

but it was a bit of a soggy start to the Central Districts Field days in Fielding but conditions improved over the next two days and was a success for the team.

BU Manager Suyash even had a great interview with Central FM radio about Dairy Cooling Solutions and the Field Days to date.

Watch the interview [here](#).
